ADD VALUE TO YOUR BUSINESS

You're in the sleep business, and the best way to build your reputation is with a mattress that delivers amazing sleep night after night. We can help you deliver that!

RESTWELL SLEEP PRODUCTS

Trusted by thousands since 1990

Founded in 1990, Restwell Sleep Products is a manufacturer of mattresses and boxsprings located in Surrey, BC. The brand is known for quality, value and comfort and we take pride in the fact that our mattresses are Canadian-made with high-quality standards and attention to detail.

With our state-of-the-art facility in Surrey, BC, as well as our own fleet of trucks, we are able to ensure our exceptional products are backed by exceptional delivery service.

RESTWELL SLEEP PRODUCTS was awarded
the tender to supply mattresses for
BCNPHA & BC Housing since 2009

RESTWELL SLEEP PRODUCTS

Trusted by thousands since 1990

Mattresses made by Restwell Sleep Products are built with the highest quality materials and intense attention to detail. From the Canadian lumber we use, to the locally-sourced Canadian steel present in almost every mattress we build, we do everything we can to ensure we're building high-quality and durable mattresses.

Unlike many other manufacturers, we make our coils in house with our own technology, which allows us to ensure the highest level of excellence. Plus, all our foams are soy based, utilizing only natural plant oils.

Pocket Coil Models

Our pocket coil mattresses react to specific pressure areas, and the heavier portions of the body, like the hips, sink deeper into the mattress, which allows for proper spinal alignment & motion isolation.

Continuous Coil Models

Continuous coils are head-to-toe rows of s-shaped springs. These mattress models use interlinked continuous coils to provide a consistently stable and durable sleep support system.

Foam Models

All-foam mattresses are highly energy absorbent and soft. They mold to the body in response to heat and pressure, evenly and efficiently distributing body weight.

A person with long dark hair is sleeping in a bed, covered by a white sheet. Their arms are bent and resting on their head. A blue blanket is visible on the right side of the bed. The background is softly blurred, showing a white headboard.

5 STAR REVIEW WORTHY

Pocket coil mattresses provide many of the same benefits as memory foam. They contour to the body, but without the stuck feeling, some people report with memory foam.

They help avoid motion transfer more than innerspring mattresses, and instead of absorbing pressure, it reflects it, which offers solid support.

Plus, because of the air flow through pocket spring mattresses, which allows these beds to sleep cooler than memory foam, dust may sneak into the mattress, which can upset allergies.

HANDCRAFTED DURABILITY & COMFORT AT A GREAT PRICE!

Continuous coil mattresses built by Restwell Sleep and are designed to help reduce body pressure points, as well as maintain their high-quality for years to come. In fact, many of our customers report great customer reviews even after 10 years!

Designed with strength and durability at the forefront, our continuous coil mattresses will stand up to the abuses of the hospitality environment.

Our continuous coil mattresses also limit the transfer of motion. Meaning that when you turn in the night, the movement moves down and out of the mattress.

Continuous Coil

“

*A good laugh and a long sleep
are the two best cures for anything.*

COMFORT MATCHED ONLY BY QUALITY

The unique advantages of memory foam are a result of the material's unique properties that include temperature & pressure sensitivity, open-celled construction, conformability and resilience.

The dense cellular structure of foam is naturally inhospitable to microbes and prevents the buildup of allergens like dust, dust mites, mold, and pet dander.

The lifespan of our foam mattresses are another major benefit. They're built to our high-standards, meaning they're built with good quality, medium to high-density foam. They often last 10 years, maintaining their quality throughout.

LONG-TERM SUPPORT & CARE, FOR YOU & THE ENVIRONMENT

Our mattress sets are manufactured to the highest standards, quality, and with environmentally-friendly methods & materials.

Our warranty coverage includes the repair or replacement of any sleep set that does not live up to our high standards for quality and workmanship.

The beds we produce exemplify our commitment to the environment. For example, our ECOTEX® foam is derived from soy based polyols and this process minimizes the amount of petroleum used in the foam.

We also recycle 100% of our scrap cardboard, plastic, and wood, saving our ecosystem from an overwhelming amount of waste. Plus, all of our excess foam, fabric & fibre is compressed and turned into a variety of new goods such as pillows and dog beds.
